

Blank Visit Tracker for BEQVEZ Follow-up Schedule

This is an **estimated schedule** for the visits and assessments you will need after your gene therapy infusion. **You may need more frequent visits or blood draws** if you have any problems, such as liver inflammation or your Factor level going down.

If any dates will not work for you, please let our staff know right away so we can make other plans.

	<i>Visit</i>	<i>Target date</i>	<i>Activities</i>
