

Visit Tracker for HEMGENIX Follow-up Schedule

This is an **estimated schedule** for the visits and assessments you will need after your HEMGENIX gene therapy infusion. **You may need more frequent visits or blood draws** if you have any problems, such as liver inflammation or your Factor IX level going down.

If there are any dates that will not work for you, please let IHTC staff know right away so we can make other plans.

	<i>Visit</i>	<i>Target date</i>	<i>Activities</i>
